

## 2023 TKC Summer Internship Opportunity (2) Positions

### Internship description:

This is a Natural Resources & Subsistence Stewardship Internship based out of Aniak

Interns will work with the TKC Rural Outreach and Foundation's Department gathering Community Based Harvest data, attend different Kuskokwim River management meetings to understand the fisheries management process along the river, and assist in our education/workforce department.

Interns will also work with the Native Village of Napaimute's fisheries department learning and assisting in their different fisheries management projects such as the Aniak Test Fish and Salmon River Weir. This work will require multiple day stays at a remote fisheries weir.

There will also be outreach trips to our TKC villages connecting our interns to the shareholders and villages we serve and introducing them to the different community projects we are partnering on.

This internship will be a 6-week program, starting June 19<sup>th</sup> and ending August 4<sup>th</sup>, 2023. Lodging & meal stipend will be provided

### Qualifications:

Must be 18 years of age and older

Must be a TKC Shareholder

You do not need to be enrolled in a college or vocational program

You do not need to be an Alaska Resident

### How to apply:

The 2023 Summer Internship Application is available on the TKC website:
